High Gloss Floor Finish

(G3347-EA)

Health	1
Flammability	0
Physical Hazard	0
Protection	B

Appearance & Odor.....	Milky liquid with acrylic odor
VOC content.....	≤ 30 g/l
Net Contents.....	1 Gallon

MEGA SHINE 3D provides a durable, high gloss floor finish without buffing that levels well and exhibits excellent detergent and scuff resistance. **MEGA SHINE 3D** responds easily to conventional spray buffing as well as high speed burnishing. Formulated with metal cross linked polymers for added resistance, **MEGA SHINE 3D** is suitable for use on all types of resilient flooring, as well as varnished, painted or sealed wood and masonry flooring.

DIRECTIONS

INITIAL APPLICATION

1. Remove all old wax and floor finish with appropriate stripper.
2. Rinse the floor thoroughly (at least twice) with clean water.
3. Repeat steps 1-2 if all finish is not removed. Allow to dry.
4. Apply 3-4 thin coats of **MEGA SHINE 3D** using a clean synthetic mop, allow a minimum of 30 minutes between coats.
5. Apply additional coats in the same manner, allowing at 30 minutes drying time between coats.
6. For very porous floors, an initial coat of floor sealer is recommended.

NOTE: Temperature, humidity and air movement affect curing time. To avoid contamination, do not return any unused material to original container.

ROUTINE MAINTENANCE

1. Sweep or dust mop as necessary.
2. Damp mop with proper cleaner following label instructions. For accumulated soil, lightly scrub as needed.
3. After cleaning, spray buffing or burnishing may also be done once loose dirt and dust has been swept up.
4. Additional coats may be applied if needed.
